# Important Information

- **Disclaimer:** This presentation and the information contained herein are provided solely for information purposes, and are not to be construed as a solicitation of an offer to buy or sell any securities or other financial instruments in any jurisdiction. No investment decision relating to financial instruments of or relating to Idle Finance should be made on the basis of this document. No representation or warranty is made or implied concerning, and Idle Finance assumes no responsibility for, the accuracy, completeness, reliability or comparability of the information contained herein relating to third parties, which is based solely on publicly available information. Idle Finance undertakes no obligation to update the information contained herein.
- **Available information:** Idle Finance's Performance Reports and other financial information are available at [docs.idle.finance/governance/idle-dao/reports](https://docs.idle.finance/governance/idle-dao/reports). Numbers presented in US dollars unless otherwise indicated. Currency translation of monthly income statement items of operations with a functional currency other than the US dollar (ETH, IDLE) are translated with year-to-date rates into US dollar. Main YTD tokens prices used in this report are: ETH \$2,230, MATIC \$1.15, IDLE \$0.87. Stablecoins prices are assumed equal to \$1.
- **Rounding:** Numbers presented throughout this report may not add up precisely to the totals provided in the tables and text. Percentages and percent changes disclosed in text and tables are calculated on the basis of unrounded figures. Zero values generally indicate that the respective figure is zero on an actual or rounded basis. Values which are zero on a rounded basis can be either negative or positive on an actual basis.

# DAO Financials

# Key Financial Metrics

\$78m

Average M3 TVL

+10%

TVL change wrt M2

\$68k

M3 Strategies Fees

+19%

Fees change wrt M2

# Total Value Locked

Idle Finance showed an increase (\$71m to \$78m, ~10%) in TVL during M3 of 2022. The growth of the mandate's TVL can be mainly attributed to new traction gained by the Perpetual Yield Tranches. The Lido stETH PYTs increased its TVL by 125%. The two new PYTs released during the mandate, i.e. Euler agEUR PYTs and Clearpool USDC PYTs, were positively welcomed by the market.

+10%

TVL change wrt M2-2022

# Revenues

Total revenues increased by 19% with respect to M2-2022, primarily driven by net new fee-generating strategies, i.e. Perpetual Yield Tranches, over the past three months. The majority of the fees were generated by the Lido stETH PYTs.

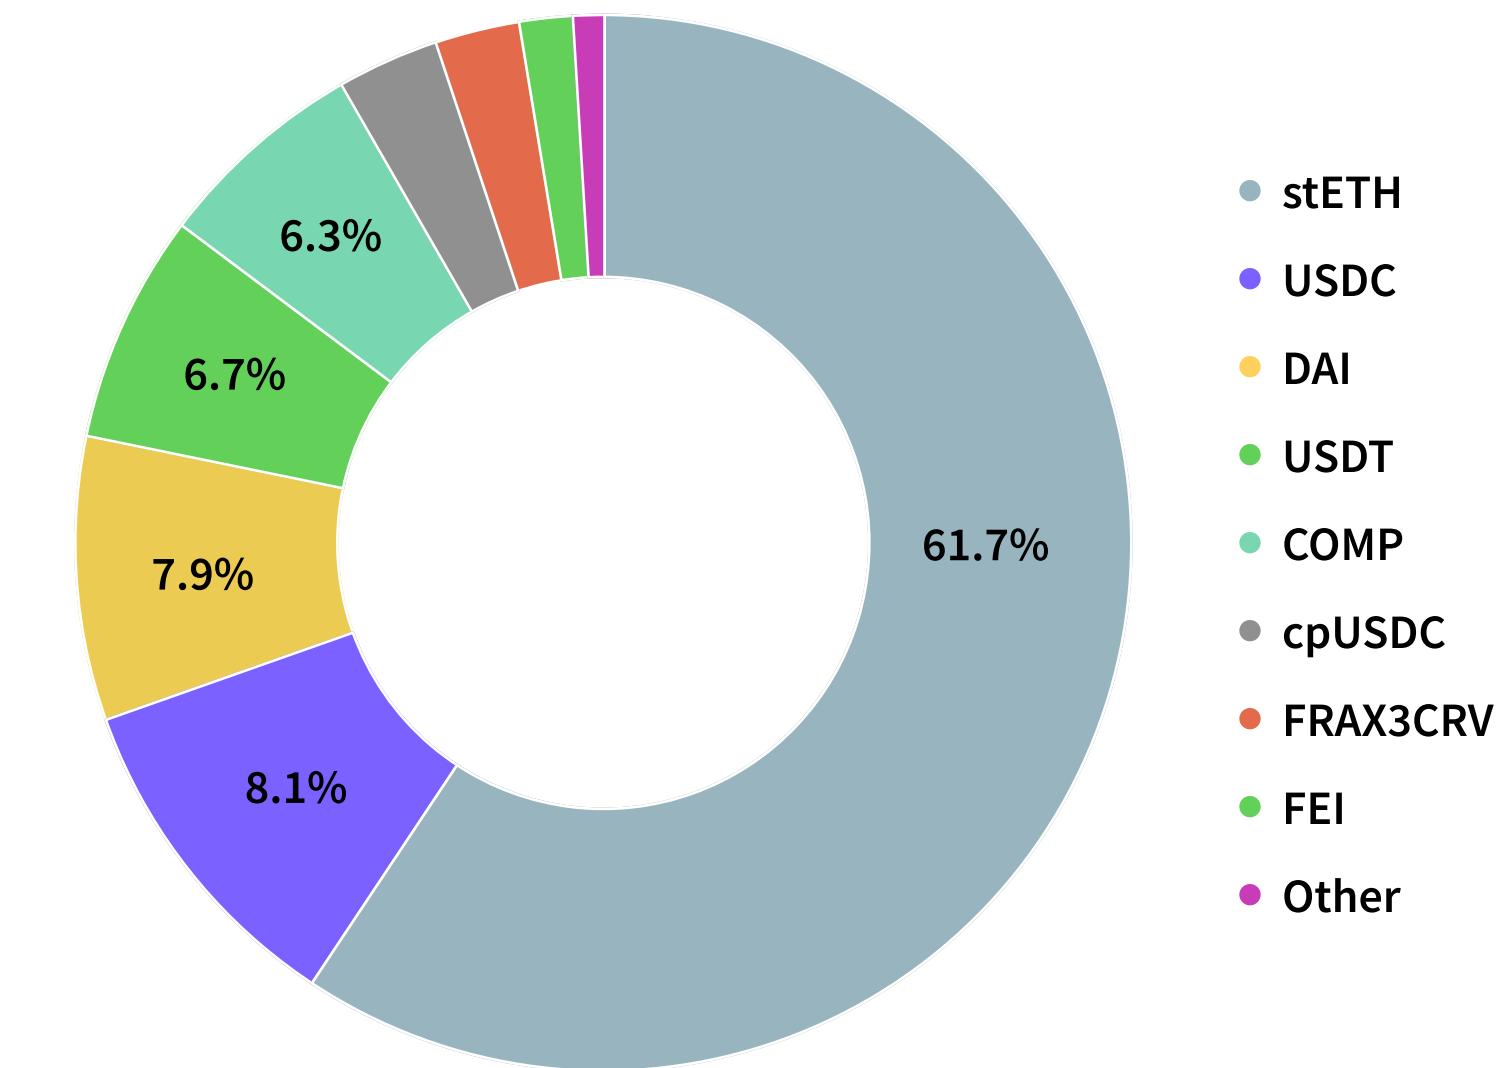

\$68k

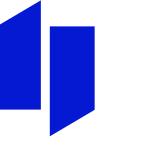

Ξ 30.5

The Best Yield strategies generated ~28% of the total protocol fees. The stablecoins pools (i.e. USDC, DAI and USDT) were still the dominant BY pools by TVL and fees.

Perpetual Yield Tranches' fees accounted for ~72% of the M3 inflow.

**Total revenue (% per token)**

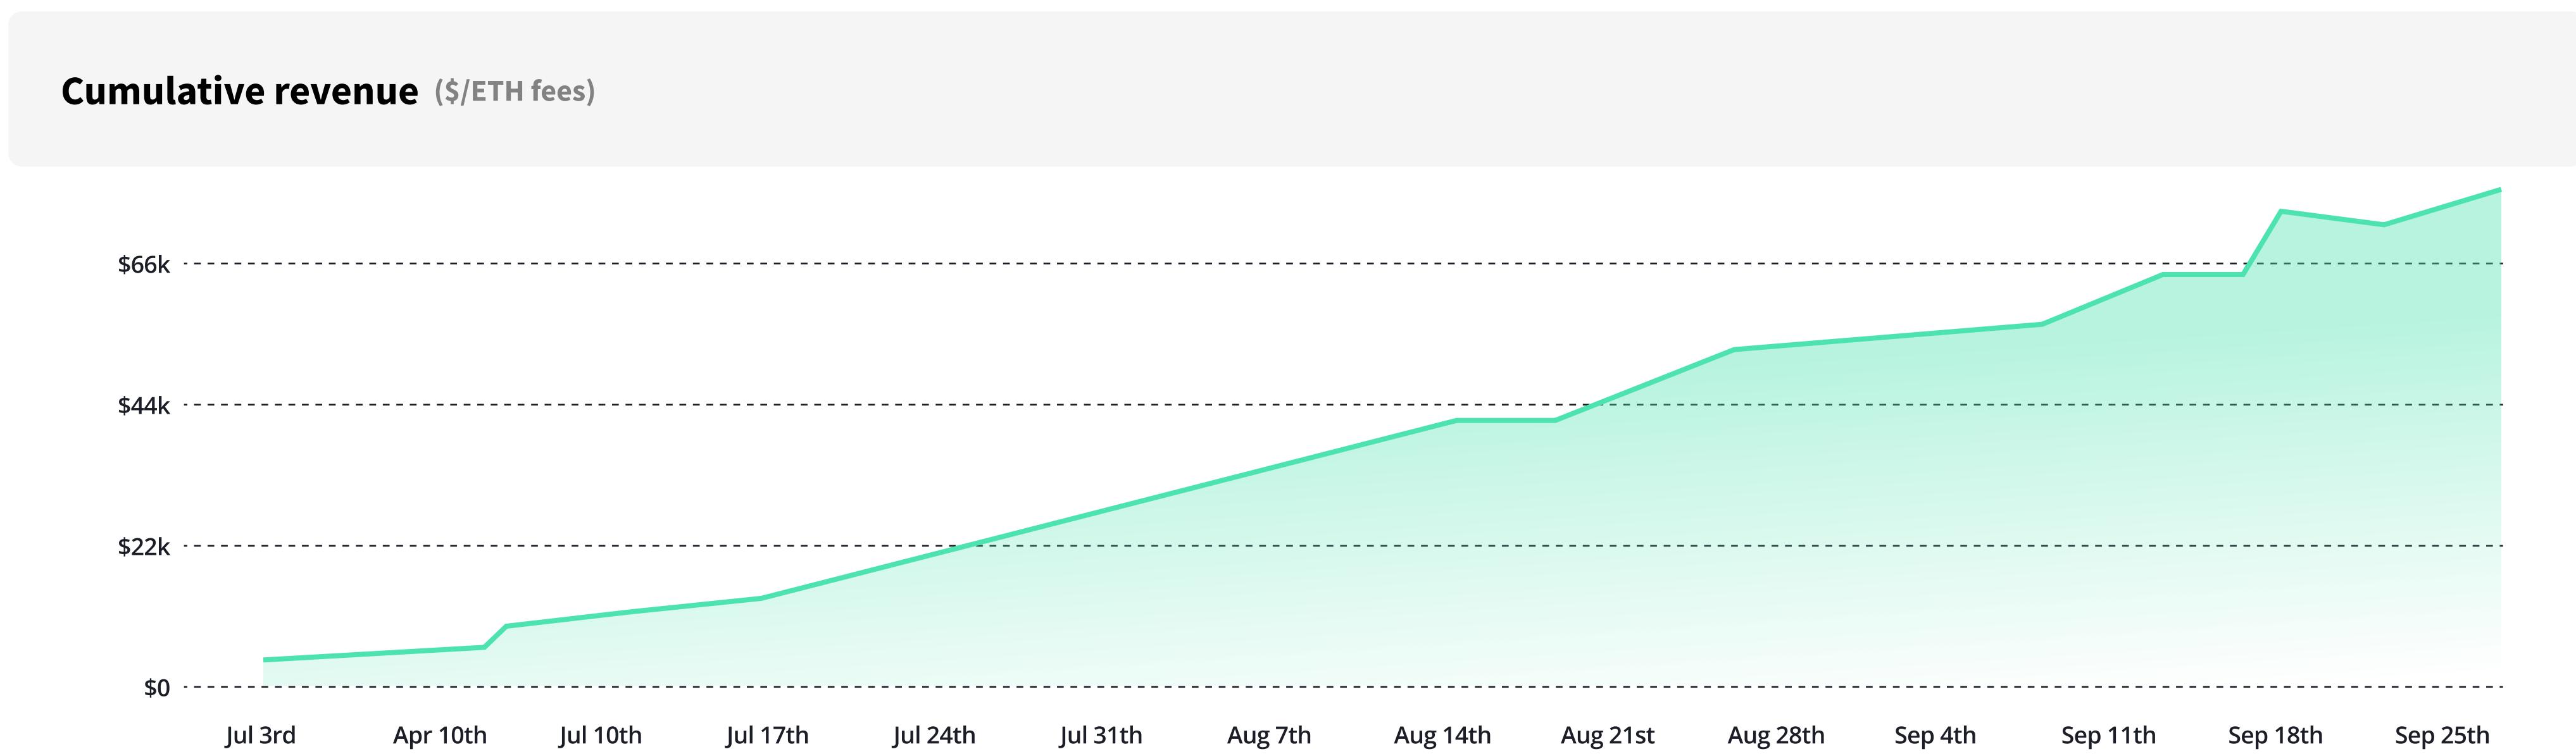

# Revenues

+19%

Idle Finance revenues showed a steady increase since July 2022, mainly driven by the performance fees on the Lido stETH Perpetual Yield Tranches.

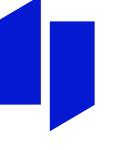

Fees change wrt M2-2022

# Income Statement

The third mandate of 2022 showed an overall improvement of the performances with respect to the last mandate. The macro economics trends kept on being adverse, but DAO Leagues were able to attract additional liquidity and retain the capitals deployed into the protocol.

Idle Finance saw a increase in both TVL and fees generated. The major expenses of the mandate were related to Leagues contributors rewards. The restructure started in M2-2022 together with an increase in fees coming from Perpetual Yield Tranches lead to an almost break even between revenues and expenses.

Despite the adverse market conditions, Idle DAO kept on building and closed new partnerships with the goal to make the protocol more resilient against future market shocks.

Other		
Total tokenholders reserves	\$ 4,374,032	
Net profit/(loss)	\$ (7,138)	
Total liabilities and tokenholders reserves	\$ 4,366,894	

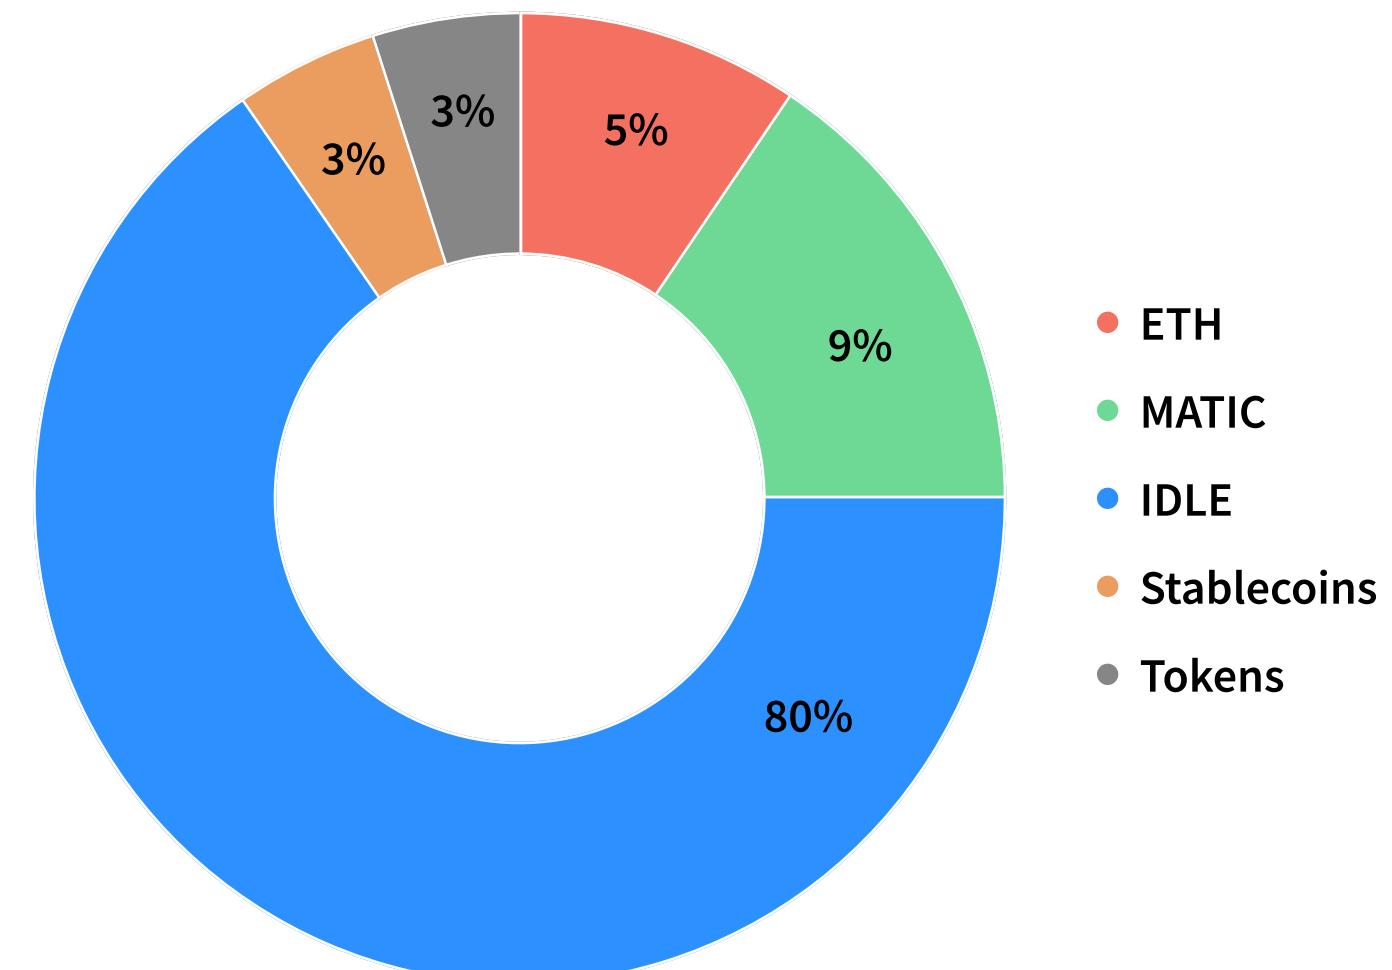

# Balance Sheet

In M3-2022 the Idle DAO's total assets decreased to \$4,366,894 mainly due to the price impact on DAO's treasury. Cash and cash equivalent increased with respect to the last mandate holdings.

The M2-2022 \$37k borrowing liabilities in Qi DAO has been closed. DAO's reserves (mainly in IDLE) summed up to \$3,696,433 showing a decrease with respect to M2-2022. This was mainly caused by the high correlation of IDLE and ETH and the price decrease affecting both tokens.

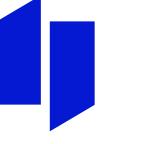

**Treasury (% per token)**

# Budget vs Actual

BUDGET VS ACTUAL	M3 BUDGET	ACTUAL	USAGE (%)	M3 DIFFERENCE
Leagues rewards	\$ (65,250)	\$ (63,601)	97%	\$ 1,649
CL Operations	\$ -	\$ -	-%	\$ -
DL Operations	\$ -	\$ -	-%	\$ -
TL Operations	\$ -	\$ (2,796)	100%	\$ (2,796)
	<b>\$ (65,250)</b>	<b>\$ (66,397)</b>		<b>\$ (1,147)</b>

# Budget vs Actual

The budget of M3-2022 summed up to \$65k (42% decrease with respect to M2-2022 budget), with 100% devoted to cover the Leagues rewards and no budget to cover the Operation expenses.

Out of \$65k budgeted, only \$63k were used (~97% usage) with an excess balance of \$2k.

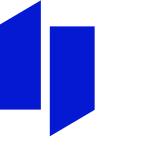

The only Leagues operations costs of the mandate were the ones incurred by the Treasury League, which spent ~\$3k.

M3-2022's budget has been transferred to Leagues through IIP-25 with funds coming from the Fee Collector and the Fee Treasury. It included a mix of stablecoins and ETH.
